Sportsheadz Mobile App for Team Management

Available for Android & Apple

WLMHA already pays for this app through yearly website fees.

Through the app:

-schedules sync with our website

-coaches can direct message each other and all players/parents in a team chat

-has an "Attendance" feature - so parents can mark kids

present/absent during ice times for pre-planning if there are not enough kids to run a practice for example

-team events can be scheduled by the coach (for example dinner together after a tournament)

-allows a communication method for the team without having to share private numbers for texting

-if you have kids on multiple teams you can be part of them all on the app

How does it Work?

- WLMHA Web Admin (Maryjo) adds the players and/or guardians, and coaches emails to each team through the website database.
- Players and/or guardians then receive an email asking them to download the app and make a Sportsheadz account, as they have been added
