A representative from all families were present with the exception of 2 families.

Regrets:

Scott Tobias

Review of Atom Representative Team

Atom Representative parents were invited to discuss the current state of the Atom Representative team. One family notified the board advising they were removing their child from the team. This left the team with 9 skaters and 1 Goalie. The board received permission for a late entry to the Four Counties league. The decision on whether the team would remain as representative or go to local league needed to be made quickly because of the broader impact on schedules.

The board provided the following options to parents:

1. Continue as a representative team in Shamrock
2. Play on local league through Four Counties league

Parents were advised the board had been in contact with our OMHA representative and was provided the following additional information:

1. A player can go to another centre and play local league
2. If a player goes to another centre to play local league, they cannot AP (affiliate player) to their rep team
3. No 3.5's will be issued for players to go to other centre to play representative hockey

The parents requested the opportunity to speak privately as a parent group to jointly decide on their options. Following this the board was informed they could not make a decision in the moment and advised a response would be provided by Saturday, October 12, 2019.
